

To Mr. Kenneth Wieder , Special Examiner at PTO 2600 Group. Fax 571-273-2986; Tel : 571-272-2986.

PETITION TO MAKE SPECIAL

Application # 10, 707, 714. Title :
Object Approaching Detection Anti Blind e-Mirrors System

Filed on Jan 6th 2004. EFS ID 53192

Dear Kenneth,

It 's our pleasure to know you are the special examiner. We are proud of you !

We have been waiting over 1 year for examination of our application. we realize we do not have much time left for waiting. After we have communicated with PTO officers over 50 times in the past 3 months, we know there is no hope to do anything except petition to make special, since we do not have much time remain.

We have no choice but have to file petition for time sensitive application, # 10, 707, 714. We found that we have more than 1 criteria match the list of **708.02 PETITION TO MAKE SPECIAL [R-2] 37 CFR 1.102 Advancement of examination.**

IV. APPLICANT'S AGE The senior applicant, **Raymond Spykerman**, is **95 years old**. He is the last few survivors who experienced the World War I. And he was a US Navy worked for special intelligent service during World War II.

His age is making him more and more tire, and now barely can walk. There is no too much time left for him to enjoy any beautiful things in the world.

Unfortunately, this application is found to drop behind an infinitive long waiting line within 2600 group, after checking its status in the past 3 months. He feel no hope to see the application get exam and to see everyone can use his invention in his life ! which is the biggest wish and only dream for his 95 years life.

V. ENVIRONMENTAL QUALITY materially enhance the quality of the environment and life-sustaining natural elements.

Nowadays, air bags are mandatory installed in every year 2000 motor vehicle to protect life in case of deadly traffic accident happen any time. Our invention is more over to contribute to driving safety. It significantly avoids or lower traffic accident rate happen everyday nationwide, causing by "driver did not see it " error, such as car backing accidents, backing running over children , freeway changing lane accidents, freeway following too close accidents etc.

Traffic accident weekly rate will be significantly reduced nation wide , if this invention get exam earlier so to be widely used in motor vehicle industry earlier. This will benefit to reduce life lost and million dollars physical property lost everyday all over 50 states.

For detail about this invention, please access www.CenturyInventions.com Item 1 # .
Following page attaches the inventor's birth certificate.

Thanks ahead for your kind support.

Mr. Kenneth Wieder,

I am faxing you some of my past efforts to develop the backup cameras. I started with New Products Consulting Co. and when they went out of business, due to the owner dying.

I search for a new developer for the cameras. Finally I was able to contact Romeo Linn of San Jose, CA. He has been working now for the past few years for me.

Good cameras were hard to find that would give a good view. This is a product that should be mandatory on all vehicles for saving many lives of small children.

Thank you,

Raymond Spykerman

Woman backs into grandson with car

Fay Skabelund, 41, knocked over her 11-month-old grandson Thursday while backing her car from a driveway in the 900 block of South 34th Street, Mesa police said. The boy was not seriously injured but was flown to Maricopa Medical Center in Phoenix as a precaution. Skabelund will not be cited.

3-year-old A.J. boy run over by neighbor

Three-year-old Alec Collier of Apache Junction is recovering at a Phoenix hospital after a neighbor ran him over near his Apache Junction home Wednesday, fire officials said.

Alec was playing in the driveway of his home about 7:30 p.m. in the 400 block of East Quail Avenue, when his neighbor, who was not identified, began to back out of his driveway, said fire marshal Dave Montgomery.

The driver ran over Alec and then left, Montgomery said. Firefighters did not know whether the driver was aware he hit the boy, Montgomery said.

Alec was alert when firefighters arrived, but he suffered cuts to the head and complained of abdominal pain, Montgomery said. He was taken to Maricopa Medical Center in Phoenix for observation, Montgomery said, adding his injuries were nonlife threatening.

Family truck backs over, kills toddler

Brother, 14, didn't see sister

BY BRYON WELLS
TRIBUNE

A 16-month-old Mesa girl was killed Thursday night when her brother accidentally ran over her with the family's truck, police said.

Mesa police detective Tim Gaffney said Melissa Godoy died instantly about 6:30 p.m. after being backed over by the family's 1993 Chevrolet "dualy" pickup truck. The truck had four rear wheels.

The girl, her three brothers — ages 2, 4 and 14 — and their 34-year-old mother, Marcelia, were preparing to go to a store before the accident happened in the 200 block of East Franklin Avenue, Gaffney said. The older son asked his mother as he walked out the door if he could drive. She replied, "no," because he was too young to drive and did not have a license.

But before the mother could get the vehicle's keys, the teenager ran inside and found them, and then began loading some of the children into the

truck, Gaffney said. He started the truck and began to back it out of the carport, unaware his younger sister had followed him outside and was behind it, Gaffney said.

"He wanted to just back up the vehicle for the family, and unfortunately a 1½-year-old girl was outside," Gaffney said.

The mother called police, sobbing, Gaffney said. Mesa Victim's Assistance team members were called to the scene to counsel the family. Names of the girl's father and three brothers were not released. No charges will be filed, Gaffney said.

"This was a very sad and tragic accident," he said.

An account in Melissa's name is being set up today at Bank of America for anybody who wishes to make contributions.
